PREAMBLE

In the light of the NSTPL Judgment dated December 7, 2015, Star India Private Limited (“STAR”) has created a framework which enables DPOs to choose from a wide array of bouquets on the basis of relevancy to their audience and that too at a reasonable price.

STAR has designed a uniform Reference Interconnect Offer (“RIO”) which is being implemented through a transparent and non-discriminatory framework with the intent of creating a robust and competitive environment in the Cable & Satellite Industry. Going forward, this RIO shall be the only basis for all subscription contracts with all DPOs of addressable platforms. The RIO also provides for incentive schemes which are optional and voluntary thereby giving autonomy and choice to the DPOs for their relevant markets.

The incentive schemes also seek to increase emphasis and focus on sports, which is reflective of STAR's aspiration of fostering a diverse and vibrant sporting culture in India. Likewise STAR's thrust on English channels is targeted to satiate the yearning and aspiration for the language cutting across demographics.

Lastly, consistent with the principles of the NSTPL judgment, STAR's RIO encompasses all incentives for its Pay and FTA Channels. STAR shall have no other separate arrangements/agreements for any placement or carriage fees outside the purview of the RIO.
